School COVID-19 Screening Decision Tree:

Responding to Close Contact – 3.19.2021

Children's Hospital
New Orleans
LCMC Health

Close Contact

Go Home / Stay in School Isolation Room Until Guardian Picks Up Student & Notify Regional Medical Director

Do Not Quarantine if...

- Fully vaccinated (≥ 2 weeks following receipt of the second dose in a 2-dose series, or ≥ 2 weeks following receipt of one dose of a single-dose vaccine), AND
- Have remained asymptomatic since the current COVID-19 exposure.

Quarantine

Return to School After 14 Days in Quarantine

CLOSE CONTACT =

- Within 6 feet of someone who tested positive, for a **cumulative total of 15 minutes or more over a 24-hour period**, regardless of whether either party was wearing a mask;
- Timing of exposure must have taken place within 2 days of the positive person's onset of symptoms or positive test result (whichever came first).

NO

Option to Get Test at Day 5-7

YES

(-) Negative Test

(+) Positive Test

Return to School After 10 Days in Quarantine

Return to School After 7 Days in Quarantine

Must be symptom-free

Follow Symptomatic Decision Tree

If one of these two options to shorten quarantine are chosen, ALL non-pharmaceutical interventions including mask-wearing and social distancing need to be maintained until the full 14-day quarantine period has been completed. (If masking and social distancing cannot be maintained, we recommend utilization of the 14-day quarantine period.)

Reducing length of the quarantine period DOES NOT ELIMINATE THE RISK OF COVID-19. If any COVID-19 symptoms develop during the 14-day period after a close contact:

- Immediately self-isolate
- Follow Symptomatic Decision Tree
- Strongly recommended to get a COVID-19 test
